My Best Friend your most
kind and welcome letter

Came to hand to day and
was read with pleasure

I am getting stuck on
this Country very much

I wish you was out here
and then I could see you
often I think I will

try to come to see

you some time soon

before fall you said you
was going to singing

I wish I was out there
to go with you I think

I could tell you something
know I havent seen you
